

Technical data sheet in accordance with ASTM

Material NBR NB703409

black

cross linking: sulfur

revision index 3	revision date 2/5/2024		page	1/3
Physical properties		nominal range	typical values	
Density ASTM D 1817		1.24 ±0.02	1.24	g/cm³
Hardness ASTM D2240, Shore A		70 ±5	71	Shore
Tensile strength ASTM D412			16.5	MPa
Elongation at break ASTM D412			353	%
Compression set ASTM D395, 22 h, 100 °C			10	%

Declarations of conformity

This overview is purely informative and does not constitute a declaration of conformity (DoC). Please refer to the actual declaration of conformity (DoC) including the conditions and its validity period.

No ASTM D2000 properties available

The given values are based on a limited number of tests on standard test pieces (2mm sheets). The data from finished parts can deviate from above values depending on the manufactories process and the component geometry.

The data represents our present empirical values. It is incumbent on the person placing the order to examine whether it is suitable for its intended purpose, before using the product. All questions regarding the guarantee of this product are in line with our terms and conditions, inasmuch as statutory provisons do not plan for something else.
